B.C. LEGISLATURE IS OPENED FOR FALL SESSION

Voters of United States to Go to Polls To-morrow

MAJORITY OPINION IN U.S.
ON EVE OF ELECTION IS
THAT COOLIDGE WILL WIN

Situation in Republic Complicated, But Close Observers Look to See Republican Leader Given Another Term; House of Representatives to Choose if Electoral College Unable to Decide.

New York, Nov. 3 (Canadian Press)—Calvin Coolidge probably will be elected President of the United States at the polls on Tuesday, according to the consensus of independent opinion here.

While an extraordinarily complicated political situation has arisen since the advent of the third party captained by Senator Robert M. La Follette, the growth of the Ku Klux Klan issue and the recent oil scandal in which prominent Republicans were involved, close observers of feeling throughout the country give Coolidge the edge over John W. Davis, Democratic nominee, and La Follette.

Coolidge has to get 266 votes out of 531 in the Electoral College to win the election. If he does not do so—that is, if Davis and La Follette get more than half the College—the election will be thrown into the House of Representatives, and the possibility is not overlooked by the prophets.

WASHINGTON OPINION

A dispatch from Washington to the Canadian Press says the most impartial forecasts in the capital are that Coolidge will be elected, but that there is a bare possibility of La Follette showing much unexpected strength in the west that the election will be thrown into the House.

ADVISER AND SENATE

The complexion of the House and Senate is extremely uncertain, although a Coolidge landslide would undoubtedly carry the House for the Republicans. The result of the Electoral election has encouraged the conservative Republicans, element beyond a doubt, the correspondent says, and the Republican forces seem even more likely to win because their opposition is split in much the same way as it was split for the Conservatives in Great Britain.

BY CLOSE MARGIN

Writing in the New York World, leading Democratic writer, Charles Mitchell, who was sent to the United States to make political observations, awards the election to Coolidge by "perhaps the closest margin of any presidential election of modern times." The writer gives Coolidge 273 votes in the Electoral College, Davis 296, and La Follette fifty-eight.

STATES FOR COOLIDGE

In the New York Evening Post, Louis Seibold reviews the situation in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Michigan, Illinois, Indiana, and Ohio, all of whom he declares will vote for Coolidge and his running mate, Charles G. Dawes.

Other forecasters give Coolidge California, Colorado, Idaho, Kansas, Pennsylvania, Oregon, Utah, and possibly Washington.

STATES FOR LA FOLLETTE

Calculations of the La Follette strength vary greatly, but it is generally thought the Senator will be supported by Wisconsin, Minnesota, North and South Dakota and Montana, with Wyoming and Nevada possibly throwing their strength to the Independents.

STATES FOR DAVIS

John W. Davis is given Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, North and South Carolina, Tennessee, Texas, Virginia and West Virginia.

MCKIE FUNERAL WAS
HELD IN VANCOUVER

Many Paid Tribute to Memory
of M.P.P.-Elect Killed by
Train Explosion

Vancouver, Nov. 3.—Accorded the full honors of the Masonic rite and with thousands of Vancouver citizens paying their last tributes, the body of John A. McKie, M.P.P.-elect for Greenwood-Grand Forks, was laid to rest Sunday afternoon in Mount Pleasant Cemetery.

The funeral service, held in First Presbyterian Church, was conducted by Rev. R. G. MacBeth, D.D., of St. Paul's Presbyterian Church, who is an intimate friend of the family. He was assisted by Rev. J. Richmond Craig, pastor of First Methodist Interdenominational Church, and Rev. Jacob Wright.

Rev. J. R. Robertson of Grand Forks, who had traveled to the city to take part in the service.

ATTENDED AS BOY

Dr. MacBeth, in his address, said it was eminently fitting that the funeral service should be held in the church which Mr. McKie had attended as a young boy, and he admitted that his personal membership had done so much good among his fellow men. He had been one of the foremost among many fine young

RIVERA IN MOROCCO AND CHANGE
OF GOVERNMENT IN SPAIN SAID
TO BE EXPECTED AT EARLY DATE

Biarritz, France, Nov. 3.—The political position in Spain has become extremely critical, according to passengers who have arrived here from Madrid.

Admiral Marquis de Magaz, temporary president of the Military Directorate in the absence of Premier Primo Rivera, has been in daily communication with the Premier, but the latter declines to accept responsibility for occurrences in Spain while he is in Morocco.

Admiral de Magaz is believed to have tendered his resignation together with those of the other members of the Directorate, and it is understood that changes are imminent whereby another government will be formed.

Odds Coolidge
Will Win go to
Eleven to One

New York, Nov. 3.—Following the Republican forecast of a certain victory at the polls to-morrow, the betting odds that President Coolidge would win went to 11 to 1 yesterday.

The odds against La Follette were 25 to 1 in Wall Street.

The odds against John W. Davis were quoted at 13 to 1.

The Street was willing to bet 5 to 1 that the election would not go to the House.

Prince of Wales
To Exhibit Cattle at
Fair in Toronto

Toronto, Nov. 3.—Breeders of pure-bred stock in Canada, including seventy-five exhibitors from the United States will be offered an opportunity of competing in a show ring with stock from the Prince of Wales ranch in Alberta at the approaching Winter Fair in the Royal Ceilidh, Toronto. This will be the Prince's initial effort in an eastern showing.

The Prince is sending a caravan of stock made up of horses and cattle, including some of the prize-winners at the leading western fairs and several of which will make their first appearance in the judging ring.

SNOW IN ALBERTA

Following a heavy snow storm on Friday, wintry weather has continued here since. Snow has been falling since Sunday morning.

LOOKING INTO
LUMBER TRADE

S. African Contractor Says
Good Opportunity Exists For
Developing Trade

Is Also Looking Into Cotton
Growing Methods of the
South

That there is a great opportunity for development of the lumber trade with South Africa from British Columbia is the statement of W. T. Gatenby, of Durban, who spent the week-end at the Dominion Hotel, en route to California.

Mr. Gatenby is making a round-the-world tour with his family, and during long association with the lumber trade in South Africa has had an opportunity to study the facts with regard to future importations. He pointed out that the bulk of the lumber used in construction comes from Scandinavia, with a certain amount from the Pacific Northwest, shipped under the generic name of "Oregon pine," the majority of which is believed to originate in the states of Washington and Oregon.

There is, of course, a very large demand for pine props and similar timber as well as wood used from imported qualities for general construction. The only native woods, mahogany and teak, come from portions of British South and Central

India, and they joined in the laughter. Mrs. Motherwell in a joking manner asked them if they too had lost their positions while in the West.

A dispatch from Ottawa to-day said:

"Premier King's return from his Western tour is expected to be followed by some Cabinet reorganization. In his written speeches the Premier repeatedly urged the necessity of union between Liberals and Progressives and in political quarters

Maj. Zanni May Attempt
Aeroplane Flight From
Europe to Buenos Ayres

Tokio, Nov. 3.—Major Pedro Zanni, the Argentine aviator, who announced to-day that he had abandoned his proposed attempt to fly over the transpacific air lane from Japan in the approaching winter season, reached his decision when word was received here that the ports of Petropavlovsk and Paramushiru were icebound. This condition ended the possibility of obtaining ships to lay in supplies along the route.

Major Zanni has three plans of action for the future. Subject to the approval of a committee of three in Buenos Ayres, to which he has cabled, the Argentine aviator may remain in Japan until Spring and continue the flight as outlined, or he may proceed to Europe and make a flight across the Atlantic to Buenos Ayres, or he may make a flight from New York to Buenos Ayres.

(Concluded on page 2)

RAILWAY BOARD
TO SIT HERE

Hon. H. A. McKeen, the new chairman of the Railway Commissioners of Canada, is expected to pay his first visit to Victoria for the sitting of the board to-morrow. Hon. Frank Oliver will be the other commissioner sitting with him on this occasion.

LORD CHANCELLOR

London, Nov. 3—(Canadian Press Cable)—Lord Cave, Lord High
Chancellor in the former Baldwin
Government, is the almost unanimous
choice of the press for the same
portfolio in the incoming Baldwin
administration, to succeed Lord Hal-
dane. Lord Cave is well known in
Canadian legal circles.

It is understood that Lord Birkenhead,
who was Lord Chancellor in the
Lloyd George Government, is not
anxious for a legal position in the
new Cabinet, though his name is being
mentioned as a probable member
of the Cabinet.DENIAL IS MADE
MOTHERWELL IS TO
LEAVE CABINET

(Continued from page 1)

here it is thought to herald further
endeavors to secure Progressive ac-
cessions to the Cabinet.

NEGOTIATIONS REPORTED

"When the Premier formed his
Government there were negotiations with
a view to the inclusion of Pro-
gressives in the Cabinet, but nothing
came of them. Just before the last
session of Parliament there were fur-
ther negotiations with Progressives.
Hon. T. A. Crerar, former leader of
the Progressives, and Hon. Charles
Dunning, Premier of Saskatchewan,
both came to Ottawa, had long inter-
views with the Premier, and while
both stated later they had not been
offered portfolios, that was the gen-
erally accepted aim of the negotia-
tions. In the event, there were no
Cabinet changes. The Progressives
remained outside, although giving
general support to government
policies.

AHEAD OF HIM

"Rumors of the Premier's plans or
supposed plans are preceding him.
Political gossip is busy with Cabinet
changes. There is talk of the im-
pending return of Mr. W. R.
Motherwell, Minister of Agriculture,
both to Ottawa, and long inter-
views with the Premier, and while
both stated later they had not been
offered portfolios, that was the gen-
erally accepted aim of the negotia-
tions. In the event, there were no
Cabinet changes. The Progressives
remained outside, although giving
general support to government
policies.

WOMAN IN CHARGE

Anastasia Veregin, niece of the late
leader, was in charge of the cere-
monies, which were mostly in Russian
and English, bore inscribed the
words, "Toil and peaceful life," and
"Peter Lordy (Veregin), each
inscription being surrounded with a
tiny dove and the words, "An em-
blem of Peace." Larion Veregin,
nephew of the late leader and secre-
tary-treasurer of the community, read
Veregin's biography, announcing that
Peter had descended from him to
the church of St. Peter in Kiev, Russia,
and that this was no where. The biog-
raphy described Peter as descended
from the Holy Spirit and incarnated
in man, the spirit passing from his
body, but not dying, being still the
same spirit that was incarnated in
the founder of the sect 400 years ago.

MOVED SLOWLY

The cortège proceeded literally by
inches, taking two and a half hours
to reach the grave two miles by
road, the casket being carried by
hand. Its cover and emblematic
wreaths carried high in the air all
the way. There again Anastasia was
in charge of the ceremonies, which
included an offering of Russian
and Ukrainian bread. Mr. Gatenby pointed out
that the British Columbian fir and
other provincial timber is just what
is needed, and it ought to be possible
to meet prices, as compared with
Scandinavian quotations, when both
are waterborne trade.

From Australia has been intro-
duced the wattle, Mr. Gatenby says,
which has a double use as timber
wood, the bark being used for
tanning and similar uses, while the
timber is cut for box making and
similar woodworking industries.

COTTON GROWING

From California Mr. Gatenby will
go to Louisiana to study the produc-
tion and grading of cotton, owing to the
extensive development in cotton
growing in Zululand, Pondoland and
in some of the littoral sections of
Natal. The eastern port of the
Union, says Mr. Gatenby, will be the
greatest cotton producing section of
the British Empire within a few
years owing to the possession of
cheap labor. Kaffir labor can be
hired more cheaply than any cotton
producing section in the world, and
any hope to rival and with climatic
conditions encouraging, he says the
influence of South African cotton on
the textile world is going to effect
revolutionary changes in that com-
modity.

COAL PRODUCTION

Extensive mining of bituminous
coal is proceeding in various points
in the Union, the collieries around
Johannesburg being the chief in Natal.
Significant as are being produced
that the bulk of the ships have
become a most important phase of
business at Durban, and while not
as large as during the days of the
war, it is still very considerable. So
great has been the expansion of the
coal fields of Natal that a special
railway line for coal traffic to
sea-lanes is contemplated.

DEMAND FOR INDUSTRIES

With this remarkable supply of
cheap labor and abundant fuel, the
country is to cut down imports, and make the
country self-sustaining. With that
object in view there is expected to be
tariff legislation against automobile
imports, with a view to force
their manufacture in South Africa.
At present Mr. Gatenby says the
make of car is almost all American,
increasing rapidly in numbers.

To those who have not been in
South Africa since the Great War,
the visitor declares they would be
surprised with the marvelous pro-
gress achieved in the past six years,
leading to the construction of a self-
contained, completely independent
city, as well as politically work-
ing out its special problems.

To those who wish to know more
of business in South Africa, Mr.
Gatenby gives his prospective ad-
dress in San Jose, California, where
he will be until after Christmas, as
car of Mrs. F. Huxtable, 317 South
Sixth Street.

He left for the South this after-
noon.

Kootenay River below Nelson, in and
tributary to Brilliant, were present.

Peter Veregin was one of those
killed in the explosion in a car of a
Kettle Valley train near Parron, B.C.
last Wednesday.

RIVER FLOODS
IN FRANCE AND
BELGIUM GROW

(Continued from page 1)

A combination of flood and wind
has ravaged 7,000 acres in the Somme
Valley, flooding more than 100 cot-
tages on the seashore near St. Valery.
A similar situation threatens
Boulogne, and the region of Haz-
broucke is one vast lake.

DAMAGE IN BELGIUM

Brussels, Nov. 3.—The River Senne
is out of its banks south of this city,
and many acres are under water. At
Liege the Meuse is rising rapidly.

DENIAL IS MADE
MOTHERWELL IS TO

(Continued from page 1)

"There has been a large in-
crease in the number of manu-
factural establishments within the
Province, with a corresponding
advance in the number of em-
ployees and amount of pay-roll.

"The percentage of Orientals
engaged in industries has materi-
ally decreased.

"The value of agricultural pro-
ducts within the Province con-
tinues to increase.

"Financial assistance has been
extended to the Berry-growers' Co-operative Association with
satisfactory results.

"The products of the metalli-
ferous mines show a steady in-
crease in value.

"The value of British Columbia
fishery products has increased
during the past year.

"The British Columbia exhibition exhibits at
the British Empire Exhibition attracted a great deal of attention,
and much publicity has been
gained. This has been reflected in
increased orders for lumber and
fruits, and also in more
opportunities for mining investments.

"Departmental re-organization is
proceeding, wherever practical
with a view to securing greater
efficiency and lessening cost.

"The statutes enacted at the
last session of the Legislature have
been incorporated with the draft
revision previously prepared,
and a proclamation has been issued bringing into force,
as on and from this day, the
statutes so revised and consolidated.

"The Public Accounts for the
fiscal year 1923-24 will be pre-
sented at an early date.

"The annual report of the
Liquor Control Board will be
placed before you.

"The Estimate of Revenue and
Expenditure prepared with due
regard to economy and the neces-
sities of the public service, will be
submitted for your considera-
tion and approval.

"Gentlemen, I now leave you in
full confidence that you will be
trusted to you will be faithfully
performed, and I pray that the
blessing of God shall attend your
labor.

CRASH IN CHICAGO

(Continued from page 1)

WATCHMAN HELD

Joseph Braha, fifty-nine, crossing
watchman, was held for the coroner's
inquest. Two policemen found the
gate which protects the crossing in
contact after the accident, and
they said that they had not been
alarmed to warn the car crew. Two
physicians, who examined him
shortly after the wreck, said he had
been drinking, and detectives said an
empty bottle, smelling of whiskey,
had been found in the car.

The driver of the street car and
front train also questioned, were
released after railroad and car company
officials had promised Coroner
Oscar Wolff they would have them
present at the inquest.

Her Wonderful Teeth

Remove the dingy film that's clouding yours and you'll be surprised that your teeth are just as white and charming as any one's—make this unique test.

HERE is a simple test that most of us have pretty teeth without ever knowing we have, or ever realizing it.

This is the reason:

Run your tongue across your teeth, and you will feel a film. A film which absorbs discolourations and hides the natural color of your teeth.

Remove it and your teeth take on a new beauty. Maybe you have really beautiful teeth without ever forming.

Old-time dentifrices were unable to combat it successfully. And tooth froubles were a serious problem.

Now modern science has discovered a new way. A new-type tooth paste called Pepsodent acts to curdle film, then harmlessly to remove it. No soap or chalk, no harsh grit dangerous to enamel.

Film is charged too with most tooth troubles. It clings to teeth, gets into crevices and stays. Germs breed in it. And with tartar, are the chief cause of pyorrhoea.

So, besides loss of tooth beauty, film is a serious danger to healthy teeth. You must remove and control.

Vancouver Island News

URGES ROAD CONNECTION WITH SOUTHERN END

Plea From Sayward For Promises of Highway Extension Into District

Sayward, Nov. 1.—J. E. Armishaw, J.P., writes to The Times as follows: "At the present time there is much being said in favor of the co-operation between the districts on Vancouver Island. Credit should be given to those who are trying to bring this about, but by the various news items appearing in the Island papers one would think that Vancouver Island ends at Courtenay or at Campbell River, as there is no mention of any needed development or improvements at the point north of Campbell River. Those men who are working for closer co-operation are fully aware that for many years the residents of the Sayward Valley have pleaded for closer co-operation and assistance from the southern districts in their efforts to have the Island Highway extended to the Campbell River via the Sayward Valley."

Many delegations have visited the Victoria Chamber of Commerce on this question and many resolutions have been presented to the Associated Boards of Trade and the Good Roads League. These resolutions have usually been endorsed. Apparently the Chamber of Commerce was solid behind this undertaking, and have pressed the Government to undertake this work. A letter received recently from the chairman of the agricultural group of the chamber states that because of the needs for greater economy in the Province it could not recommend that this much needed extension should be undertaken at the present time.

"It looks as if the cause of this change is to be found in this new movement for closer co-operation, which has as one of its objectives the paving of the present Island Highway and the completing of a northern route for the traffic in the southern portion of the Island. Apparently the Chamber of Commerce has lost sight of the need for greater economy when the interests of the southern portion of the Island is concerned. The people of Sayward are not against road development anywhere, but think that the northern part of the Island should be given a connection for this paving and done or more trunk roads built, providing that the necessary money is not forthcoming to do both undertakings. What this Island needs is more people and to this end we need the undeveloped portion to the north opened up. No place in Canada need or will ever be better to open up than the Sayward Valley with its thousands of acres of choice agricultural land and with its many attractions from the tourist point of view. It is in the interest of the whole Island that this work be done. Surely this Island is worth the building of one main trunk road through it."

The residents of Sayward have shown their bona fides by the splendid settlement they have built up. Many settlers have been induced to locate because of the promise that this piece of road would be built. In 1919 Hon. Dr. King, then Minister of Public Works, gave a guarantee of the completion of the House that this extension would be built, providing that agricultural development took place in Sayward Valley. This development did take place, caused through the hard work of the settlers, and the Government recognized this development by having two surveys made of this entire area, building three more bridges in the valley and at the present time building the fourth bridge. These have been built at great cost, and whilst the residents appreciate what the Government has done, they realize that this large outlay of money is of little use without the building of the i-

between Campbell River and Sayward. The whole distance is practically the Sayward Valley, all agricultural land, and a level grade.

MUST HAVE ROAD

"This district cannot and will not develop further until this road is built. What would the good people of Comox and Courtenay say if they were cut off from road connection with the southern part of the Island? They would be cut off for two months per week and be four or five days between mails. We think and know that they would shun them? The residents of Sayward know well that this valley is worth opening up to cause of the many possibilities, taking a second place with no district on the Island and as to attractions for the tourist it cannot be equalled. The residents appreciate the stand taken on behalf of the northern portion of the Island during the discussions before the General Board of Trade recently by the new member, P. P. Harrison. The residents of Sayward are not in favor for this work to be done a little each year, as the district

is growing rapidly. Those men who are working for closer co-operation are fully aware that for many years the residents of the Sayward Valley have pleaded for closer co-operation and assistance from the southern districts in their efforts to have the Island Highway extended to the Campbell River via the Sayward Valley."

Many delegations have visited the Victoria Chamber of Commerce on this question and many resolutions have been presented to the Associated Boards of Trade and the Good Roads League. These resolutions have usually been endorsed. Apparently the Chamber of Commerce was solid behind this undertaking, and have pressed the Government to undertake this work. has waited years enough for this road and the cost is very small when compared with expenditures to open up land for settlement in other parts of the Province. We have decided to hold back this work. In this connection the writer calls to mind a statement made by a Cabinet Minister of the Provincial Government who was the Provincial Government who was interviewed on this question. He said: "If you have the agricultural land as stated, the money needed to construct this piece of road is a mere pittance. We have more people, but to get them the conditions must be improved for those already here and one of the chief needs is good roads and easy means of communication. The tourists are looking for a winter home in the south of this Island. The writer heard one of the chief speakers at the good roads convention held in Victoria say: 'We know what you have got as far as Campbell River, but what have you got north?' Sayward's reply to this question is: 'We have nothing in the island.' The north-east part asks for road connection with the south, and we intend to keep up the fight until we get it."

stably combat it. It is ever present, ever forming. Old-time dentifrices were unable to combat it successfully. And tooth froubles were a serious problem.

Now modern science has discovered a new way. A new-type tooth paste called Pepsodent acts to curdle film, then harmlessly to remove it. No soap or chalk, no harsh grit dangerous to enamel.

Mail the coupon for a 10-day tube free. Or, buy a full-size tube at any druggist's today. See what beauty lies beneath the film on your teeth.

Film is charged too with most tooth troubles. It clings to teeth, gets into crevices and stays. Germs breed in it. And with tartar, are the chief cause of pyorrhoea.

So, besides loss of tooth beauty, film is a serious danger to healthy teeth. You must remove and control.

FANCY DRESS PARTY IS HELD

Colwood Children Enjoy Themselves on All Hallow's Eve

Special to The Times Colwood, Nov. 3.—The children's fancy dress party held on Friday night at the Colwood Hall proved an unexpected success. Every child in the district arrived in costume, some very beautiful, and to see them all gathered in the centre of the hall in the different games was certainly eye-pleasing.

The grand march took place early in the evening, while the dresses were still fresh. Mrs. Brown, Mrs. Weeks, Mrs. Reid and Mrs. Brice acting as judges.

The prize for the best comic "girl" was won off by Hugh Weber, and that for the best comic boy by Clare Belcher.

The junior prizes went to Esther Hutchison as a "boy" and to Kathleen Oliver.

The "tiny tot" prizes were won by Divina, Dingdale and Walter Morgan.

The Institute is to be congratulated upon the success of the party, and throughout the whole of the district the wish is expressed that the Hallowe'en children's party will be made an annual affair.

Parimer, the convener of the party, had spared no effort to make the evening a memorable one for the children, and in this she was ably upheld by the committee, which was composed of Mrs. Madder, Miss Reid and Miss Margaret Dyer. The president of the institute, Mrs. Brown, and her daughter, Miss V. M. Dyer, were also present and busy amongst the children and catering for the gathering, as were also Mrs. Brice and Mrs. Stockton.

There were games in galore, and a pumpkin drill, executed by eight girls, with many other forms of amusement.

The grand march took place early in the evening, while the dresses were still fresh. Mrs. Brown, Mrs. Weeks, Mrs. Reid and Mrs. Brice acting as judges.

The prize for the best comic "girl" was won off by Hugh Weber, and that for the best comic boy by Clare Belcher.

EVENING BADMINTON

Special to The Times Cowichan Station, Nov. 1.—An evening Badminton Club at the C.A.A.C. Hall has been formed which bids fair to become very popular. The first games were played on Wednesday evening when a fair number turned out and spent an enjoyable time. Capt. O. Hunt is the President.

The "Sir Roger de Coverley" was the best junior fancy costume, ages one to eight years—Wilbur Pearce, Glenyne Smedley and Geoffrey Hall. The "Jack o'Lantern" parade was won by Ruth and Wilbur Pearce. The refreshments were served by Mrs. E. Shields and Mr. J. Goodall, and the music for grand march, Peacock.

The Women's Institute at Langford was represented and each and all did their utmost to make the evening as enjoyable as possible for the younger element.

Other games and "show" arranged for the amusement of the children and the entertainment of the adults included "The Bull Dog Band," "Spinning the Plate," "Here's a Poor Forsaken One," "Musical Arms," "Here we go Lobby Light," "The Menagerie" and "Apple Bobbing." The most interesting arrangement was the "Maze" in which Kelly, Mrs. Brown and Miss Graham, Miss Culwell, Mr. Robinson and John Southwell, Refreshments were served by Mesdames Parker, Goodall and Peat. Mrs. E. Shields and Mr. J. Goodall, and the music for grand march, Peacock.

Practically every family in Colwood was represented and each and all did their utmost to make the evening as enjoyable as possible for the younger element.

MAN FACES CHARGE OF ATTEMPTED MURDER

Cowichan Station, Nov. 1.—Jonas Linden, sixty-five, in the Embury police station, lodges on the charge of attempted murder, Fred Hoglund, his in the Vancouver General Hospital recovering from two bullet wounds, one in the head and one in the right arm, the result of an alleged quarrel that took place in the bush off Douglas Road Sunday afternoon over wood cutting rights. Hoglund's condition is not serious, according to the hospital authorities.

NEW LABOR PARTY NOW IN MANITOBA

Winnipeg, Nov. 2.—Neill Crowley, prominent in Labor circles, was elected president of the newly-formed Manitoba Party here Saturday night.

A constitution was adopted which includes a declaration that employment for all must be recognized by the state, and that there should be state insurance against unemployment.

LEAVES OFFICIAL POST OF SERVICE

Dr. G. L. Milne, long a Resident Here, Takes Superannuation.

Dr. G. L. Milne has been superannuated from the service of the Dominion Government having been in the Department of Immigration here for a period of over twenty years. His term of office as chief of the health department here expired on Friday, the end of October. Dr. Milne had been a resident here for forty-five years.

Dr. Milne started work here in a little office on Douglas Street, and the responsibilities in those days were very great, he stated this morning. "But two years," went on Dr. Milne, "after we obtained representation, we had the immigration sheds promised us, and shortly afterwards these were erected, under my supervision."

It was shortly after this time that the immigration department took over the Chinese work from the Dominion customs, and Dr. Milne, then immigration agent, had added responsibilities, and the position of immigration agent grew in importance with the growth of travel to and from the Orient.

To-day, when S. N. Reid, present immigration agent, presented Dr. Milne with a gold-headed cane, after few words of friendly appreciation of past services, friendship and cooperation, Dr. Milne was deeply moved.

In answering with a few simple remarks he stated that he was proud to have belonged to a department of the Canadian Civil Service whose records had been so unsullied. He visited many towns who had worked with him here for their cooperation and good wishes, and for he token of their regard, of which, said he, was very proud.

Dr. Milne resides in his city and many years have passed since he has held various official posts. He also has been deeply interested in the educational problem in this city, and spent some time on the school board here, being elected to that body in 1904.

He was a prominent member of the Board of Trade in the days when Victoria was first budding into a port of call for ocean vessels worthy of note and mention. He was also a member of the Provincial Legislature from 1894 to 1896.

Dr. Milne was born in Garmouth, Scotland, in 1850. Coming here early in life he married the daughter of Mr. Alderman John Kinsman. During the early years of his life he took honors in medical studies at the in-

Railroad Figures More Encouraging

Ottawa, Nov. 3.—Net operating revenues of the Canadian National Railways in the United States were \$3,361,712 in the eight months ended with September, up against \$6,062,227 in the corresponding eight months of last year, according to returns from the Bureau of Statistics. Net operating revenues of lines in Canada were \$564,451 as compared with an operating deficit of \$882,995 in the same period last year.

Total net operating revenues for the eight months were \$2,929,364 as against \$6,062,227 in the eight months of 1923.

stitutes he attended. When he came to Victoria his interests were more widely diversified, between his profession and his business.

Dr. Milne, it is understood, will be replaced by Dr. J. W. Glendinning, of Vancouver, but now a resident here. Dr. Glendinning has only lately been informed of the change by the Dominion authorities in Ottawa.

It was shortly after this time that the immigration department took over the Chinese work from the Dominion customs, and Dr. Milne, then immigration agent, had added responsibilities, and the position of immigration agent grew in importance with the growth of travel to and from the Orient.

To-day, when S. N. Reid, present immigration agent, presented Dr. Milne with a gold-headed cane, after few words of friendly appreciation of past services, friendship and cooperation, Dr. Milne was deeply moved.

University of Edinburgh.

This arrangement requires that shippers mail a number of documents to a Mexican port of entry, and the shipper is advised later whether the shipments in question are allowable.

These conditions, entailing extended delays, will seriously affect Britain's exports of £25,000 monthly to Mexico, although many shippers already have made arrangements to send goods by way of ports in neutral countries.

DOCUMENTS TO BE SENT

The Philocetes, Capt. Evans Jones of the Blue Funnel Line, arrived here this morning at 7 o'clock. The vessel was in quarantine before 3 o'clock. At 7 a.m. she was moored at Rithet's wharves, discharging the 100 tons of cargo for this port.

"The longer I stay with the Blue

Funnel Line the clearer I am of

the fine freight carriers in the world. The Philocetes is no exception; in fact, in my opinion she is among the finest vessels crossing the Pacific," said Capt. Jones, her

commander, on his arrival here this morning.

Capt. Jones has reason to be proud of the Philocetes. Although his ship met with heavy weather, fought through head winds almost the entire way across the ocean, and struggled through mountainous seas, yet she completed her journey here in twelve days and a few hours.

STORMY PASSAGE

"Northwest winds, which veered

and changed, until at last they were

blowing 'great guns' out of the East,"

said the captain, "hindered us. The

heavy seas pounded us all through

the voyage. About six days out of

Victoria we encountered the heavy

waves of the Pacific Ocean. But

through it all the Philocetes ploughed with that fine stability that

seems to characterize all British

ships and the Blue Funnel ves-

sels, in particular."

VALUABLE CARGO

The Philocetes carried a valuable

cargo of silk, valued at over \$2,600,000

by railroad agents aboard the vessel,

arranging for its transportation to

the markets of the East by the Union

Pacific Railroad, out of Seattle.

There are 3,026 bales of raw silk

alone among the packages in this

shipment. In addition to this a gen-

eral cargo of over 3,600 tons filled the

holds of the big freight carrier. She

discharged 100 tons here.

The vessel carried 148 passengers,

second class and steerage, and all but

one of them disembarked at this port.

Shortly after 10 o'clock this morn-

ing the ship left for Mainland ports.

She dropped a number of bags of

mail here, as well, and the airplane

mail carrier arrived from Seattle to

take the American consignment back

with it just after the vessel left this port.

The Philocetes is the first of sev-

eral ships with valuable silk cargoes

aboard, which dock here this week.

The Hawaii Maru, the Toyama Maru

and the President Jefferson all are

due to follow her with a total of

\$13,000,000 worth of silk between

them.

K. NEILSEN, DANISH SCULPTOR, DIED IN COPENHAGEN TO-DAY

Copenhagen, Nov. 3.—Kai Nielsen,

noted Danish sculptor, died to-day.

BASEBALL, BOXING TIMES SPORTING NEWS SWIMMING, GOLF

Queen's Revives Fighting Spirit And McGill Loses

Dominion Rugby Champs Win Featured by Work of Batstone and Leadley

Argos Halt Winning Streak of Hamilton Tigers; Other Eastern Results

Ottawa, Nov. 3 (Canadian Press)—Saturday's rugby in Eastern Canada, provided many interesting features, outstanding among which was that the championships of the three senior leagues are still undecided and a week, probably more, will have to pass before any of the participants in the championship playoffs are known. Hamilton Tigers' first defeat of the season by the Toronto Argos, on the latter's grounds, and the Ottawa Senators' first victory of the season against Montreal were also valuable points which leave the first and cellar positions of the inter-provincial union wide open. The unbeaten record of Queens was maintained against Toronto university at Kingston.

Kingston, Ont., Nov. 3—Displaying the old fighting spirit which carried them through to the Dominion championship for the last two years, Queens on Saturday defeated McGill by the sum of 14 to 12, in one of the best rugby battles of the year.

The game was a decided reversal of form from last week, when Queen's were not very impressive against the Montrealers. Led by "Pep" Batstone and Harry Batstone, Queen's tore through the McGill team steadily, but for two lucky breaks for the red and white, were much superior. Batstone never played a better game for the tri-color. He was in the game every minute and was really one of the brightest stars on the field. Leadley and McElveen and were largely responsible for the Queen's win.

BETTER THAN EVER

McGill tried the tactics which proved fairing successful the previous week, that of on-side kicking, but they reckoned without Batstone. Queen's, on the other hand, made tremendous gains through the line. Queen's were a much better team than in the games with Varsity and Montreal, and the supporters look for a victory over the blue and white this coming Saturday.

Vancouver, Nov. 3—Alf Skinner, with Vancouver hockey team of the Pacific Coast League since 1919, and Fred "Smoky" Harris, who has been on coast since team lineup since 1912, have been sold outright to Boston, where they will play for Art Ross, it was announced here this morning.

Edmonton, Alta., Nov. 3—Ken MacKenzie, manager of the Eskimo Mackays, arrived here Saturday after a successful fur trading expedition into the Arctic region. He will leave for the East on Tuesday to procure a goalkeeper to replace Hal Winkler, who will leave for Winnipeg in the course of day or two.

Now that Manager MacKenzie has returned from his pilgrimage into the frozen wastes of the Arctic there should be plenty of development in the Western Canada Hockey League.

MacKenzie's first action will be to thoroughly digest the schedule which has been approved by the other five clubs, and then he will

mean that President Richardson will be able to release the schedule this week.

Information on pending deals and trades should also come out and the hockey fans can look for now on the Western Canada Hockey League.

The team which refused to consider itself beaten when near the end. Time drawing to a close, Tigers will finish back to the form of the first encounter. Tigers will finish as runners-up in the race with Argos out in front.

DESERVED VICTORY

On the play the scullers deserved the victory and while it was not secured until full time, it was fully deserved—indeed, earlier in the day.

The Bengal's defeat was due to the fact that on the day's play they were opposed by a better team—a team which refused to consider itself beaten when near the end. Time drawing to a close, Tigers will finish back to the form of the first encounter. Tigers will finish as runners-up in the race with Argos out in front.

RE-ELECT OFFICERS

Hamilton, Ont., Nov. 3—Varsity stepped out of Hamilton Saturday afternoon to elect officers of the important game with Rowing Club. The count was 12 to 8 and the visitors piled up eight with the wind in the first quarter and while the locals could down the margin, the visitors proved too great to overcome. It was a crucial game for the Hamilton squad, and they put forth every effort to carry off the honors, but the Toronto lads proved too much.

Calgary, Nov. 3.—University of Alberta, fighting gamely, although weakly ending the race, the finish, went steadily down to defeat by the score of 15 to 1 before the fast-stepping Calgary Fiftieth machine in the final rugby game of the season here Saturday afternoon.

Thus the expected happened. A large contingent of ardent roosters who had braved freezing weather to see their favorites win the first senior gridiron championship that this city had laid claim to in four years, went wild.

As Calgary won the previous game in Edmonton, 8 to 6, they had a margin of twenty points in the home-and-home games and demonstrated beyond any doubt that they are worthy of entering the finals of the Western Canada Rugby Union against the winners of Saskatchewan and Manitoba.

Saskatoon, Sask., Nov. 3.—Playing under the guiding hand of Dame Fortune, Regina Roughriders were moved into the Saskatchewan senior rugby championship here Saturday afternoon when they defeated the Saskatchewan Quakers, 8 to 2. It was one of the bitterest struggles witnessed on a local gridiron in several years. Resina scored six points as a result of fumbles in the Saskatchewan field. One mis-cut gave the visitors a touchdown and another a rouge.

Numerous rights in which practically all the players took part marked the contest. The officiating referee was severely criticized by

CHUNKY BOY SOLD

Intermediate Tie Is Broken; Seniors Remain Locked Up

Brentwood Now in Undisputed Possession of First Place in Intermediate Rugby

Bays and Tillicums Win Their Games and Are Tied at Top of Senior League

Saturday's rugby games resulted in a break up of the tie for the leadership of the intermediate League but failed to break the deadlock in the senior League.

As the result of a fine showing Brentwood now leads the intermediate League having disposed of their most persistent rivals, the Oak Bay Wanderers.

In the Senior League the J.B.A.A. and Tillicums are still even in the standings, both disposing of their opponents by comfortable margins.

The results on Saturday were as follows:

SENIOR LEAGUE

Brentwood 6, Oak Bay Wanderers 0; Victoria College 0, Normal School 0; J.B.A.A. 6, United Services 0.

INTERMEDIATE LEAGUE

Brentwood 6, Oak Bay Wanderers 0; Victoria College 0, Normal School 0; J.B.A.A. 6, United Services 0.

SENIOR

P. W. L. D. F. A. Pts: J.B.A.A. 4 3 1 0 22 15 6 Tillicums 4 3 1 0 27 7 6 Wanderers 4 1 2 1 15 15 3 United Services 4 0 3 1 34 1 0

INTERMEDIATE

P. W. L. D. F. A. Pts: Brentwood 4 4 0 9 20 3 8 Wanderers 4 3 1 0 21 9 6 J.B.A.A. 4 2 2 0 11 29 4 Victoria College 4 1 2 1 14 11 3 Normal School 4 1 2 1 14 36 3 United Services 4 0 4 0 6 66 0

Rugby is taking its toll of victims this season and no Saturday passes without one or two players being packed off the field. Harold Colpman of the Oak Bay Wanderers and a member of the Victoria reg team since 1912, have been sold out to Boston, where they will play for Art Ross, it was announced here this morning.

The Normal School suffered the loss of Eric Treadwell, who broke his ankle. He was one of the most promising intermediates and will be out of the game for the rest of the year.

The loss of Colpman early in the game upset the play of the Wanderers considerably and no doubt much to do with their defeat of the J.B.A.A. and Tillicums. Wanderers had to go along with fourteen men and their defensive display is worthy of note. They held the Bays to a try and a goal.

By odd trick of fate the Bays had to run and plunge almost to the final minute of play in each half before they scored. Just before half time Benny McMillan rushed across the line for a try which will mean that President Richardson will be acknowledged the leading contender for the crown held by Ed "Strangler" Lewis, of Kansas City, although the title holder will not participate in this meeting.

Just before half time Benny McMillan rushed across the line for a try which will mean that President Richardson will be acknowledged the leading contender for the crown held by Ed "Strangler" Lewis, of Kansas City, although the title holder will not participate in this meeting.

The following statement has been received by the manager from Manager McMillan of the Veterans in regard to the incident:

"Regarding the report on the Vets vs. Wards game on Saturday, October 25, Preston is reported to have been ordered off for disputing the referee's decision. The game was entirely an amateur affair. At the time Preston left the game no score had been made.

Hockey Schedule Will Be Out In Few Days, Says Richardson

Calgary, Nov. 3—Carl Battell, of Moose Jaw, for years prominent as a player in amateur and professional company, will referee all the Saskatchewan games in the Western Canada Hockey League during the 1924-25 season, according to President Richardson.

A. B. Cook will officiate for the games in Alberta and arrangements are under way to have "Mickey" Ion officiate at Vancouver and Victoria. President Richardson states that the schedule will be released in a few days' time.

Wards Win Again And Retain Lead In First "Divvy"

Defeated United Services 2-1 in Hard-fought Game; Vets Beat Esquimalt

Wests and Sons of England Drew; Close Scores Feature Saturday's Games

Three Other American Cities Seek Franchise

Boston and Second Montreal Club Admitted to National Hockey League While Pittsburg, New York and Philadelphia Likely to Gain Berths Next Year;

Adopt Rule to Kick Puck in Centre Ice

Montreal, Nov. 3.—Application for franchises in the National Hockey League for next season were requested by representatives of interests in New York and Pittsburg at the annual meeting of the league here on Sunday.

No decision was reached in either case, Colonel John Hammond, of the Madison Square Garden syndicate, and Richard Carroll, of Pittsburg, being asked to formally file their applications.

Philadelphia may also seek admittance to the professional hockey circuit, M. Masthaume, a theatrical man, having discussed the subject with N.H.L. directors.

The Montreal Professional Hockey Club and the Boston Hockey Club were formally admitted to membership.

PICK UP COAST RULE

Only one change was made in the rules of play, which legalized the kicking of the puck in the centre ice area—the no-offside area.

While the schedule of games to be played was not decided, it was definitely decided to open the season on November 29 with Toronto at Canadiens, the new Montreal club at Boston and Ottawa at Hamilton.

Unofficial reports were that offers of trades did not materialize. The new Montreal club is reported to have opened \$45,000. Frank Neighor of Ottawa and that they refused \$16,000 for Clint Benedict and "Punch" Broadbent recently acquired from Ottawa.

At night's meeting of the Lower Island Football Association the protest of the Veterans' Football Club against the North Wards on the game played between these teams on October 25, which the Wards won, will be heard. The protest is of an unusual nature, and will no doubt create considerable discussion.

The protest had been lodged on the basis that the referee called the game on account of one of the spectators ragging the players too hotly. Preston, one of the Vets', resented the remarks, and was finally sent off. At the time Preston left the game no score had been made.

The following statement has been received by the manager from Manager McMillan of the Veterans in regard to the incident:

"Regarding the report on the Vets vs. Wards game on Saturday, October 25, Preston is reported to have been ordered off for disputing the referee's decision. The game was entirely an amateur affair. At the time Preston left the game no score had been made.

SCALING CLIFF FACE—Climbers on Mount Renguard, Robson District of Canadian Rockies.

PREMIER WAS HEARD IN WEYBURN, SASK.

King Spoke of Senate Reform, Railways of Canada And Other Subjects

Weyburn, Sask., Nov. 3.—Premier King, addressing an audience of 3,000 here Saturday night, discussed Senate reform and other subjects. He said he was not in favor of abolishing the Senate, but he would abolish some of the old fellows in it. It is very undesirable that the bulk of the people should be thwarted by any body of men appointed to office for their own lives, and, he added, "a funny thing about the Senate is that when anyone is appointed to that body, his natural life is almost twice as long as it should otherwise be."

RAILWAY SERVICES

He declared the Government could be relied on at all times to see that the railways were made to serve the people and not the people the railways, and that an Act of Parliament must be supreme.

He made an earnest plea for a more unified policy in Canada.

VIOLENT DEATHS IN EASTERN CANADA

Man Engaged in Prank Killed By Auto; Horses Killed Farmer

Ottawa, Nov. 3.—There were several fatalities in Eastern Canada over the weekend.

Robert Waddell, twenty-three, died in Toronto from injuries received when struck by an automobile as he was dragging a coal wagon for a Hal-loween prank.

Miss Lucille Scott and Mrs. Daris Bronk, both of Detroit, were fatally injured in an automobile accident at Windsor, Ont.

Robert Gallagher, eleven, was knocked down by an automobile in Toronto and seriously hurt.

Maria Brennan, five, was knocked down and seriously injured in Ottawa by a skidding automobile.

Martin Moloney of Cantley, Que., died of a fracture of the skull after falling from his buggy at Ironsides, Que.

Louis Campbell, a farmer, was thrown from his buggy and killed when a team he was driving bolted in Tweed, Ont.

Russell Thompson was drowned in the Otonabee River, near Peterboro, when his boat upset.

TWO WERE KILLED

Montreal, Nov. 3.—Mrs. E. duPont, sixty, of Farnham, Que., and her son Edwin, forty-four, of Montreal, were instantly killed and two persons were injured, one of them seriously, at a level crossing on the Canadian National Railway, opposite the St. Hubert Station, about three miles from Montreal, yesterday afternoon. The accident occurred when the automobile in which they were riding stalled on the tracks and was crashed into simultaneously by the train and by another automobile from the rear.

CHANGES IN EMPIRE TRADE ARE EXPECTED

Cape Town, South Africa, Nov. 3. (Canadian Press Cable via Reuters) —The Cape Times, commenting on the British election results, said: "The country has given Mr. Baldwin full power to put into speedy effect the resolution passed by the Imperial Economic Conference of 1923. "The new Government will proceed with its foreign policy upon the principle that it is a sound and wiser policy to secure cooperation within the Empire than to make lopsided agreements with avowed enemies of British institutions."

TUMBLING WATER—Falls of the Pool on the trail to Berg Lake.

ICE CLIFF—Overhanging ice cliff on the side of Mount Robson, highest peak of the Canadian Rockies, 13,068 feet.

GOING UP—Mountain climbers fighting their way up the snow slopes of Mount Robson.

IN CAMP—The Alpine Club camp at Berg Lake, Canadian Rockies.

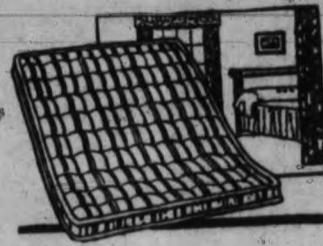

MOUNTAIN GUIDE—Guide Kohler of Jasper Park Lodge, prepares Alpinists' boots for the Mount Robson climb.

"Border Legion"
New Zane Grey
Paramount Film

Story of the Old West is Portrayed at the Dominion

The "Old West" has come back! Once again in the far North country where Zane Grey wrote the novel "The Border Legion," cowboys in picturesque garb ride through the great stretches where wire fences have not come.

Once again the tinkle of spurs and the crack of saddle leather break the lazy hums of midday.

Once again, in a cloud of dust that dances over the great herds of cattle move through the sagebrush wilderness with the steady rumble of a thousand hoofs.

Once again the rolling hills hear the shrill "coo-e" of the cowboys, riding herd with one knee thrown nonchalantly over the saddle horn.

The old west was reborn for Paramount's picturization of "The Border Legion" in locations personally selected by Zane Grey. Far in the North country, a selected cast of Paramount players headed by Antonio Moreno, Helena Chadwick, Charles Ogle, Rosalind Fellowes and others brought to life the characters that lived long ago.

Approximately 100 minor players, chiefly cowboys, take part in the spectacular production, directed by William Howard.

"The Border Legion," now showing at the Dominion Theatre was filmed true to life.

The story, adapted to the screen by Geo. Hull, has to do with the activities of a band of ruthless outlaws who preyed upon settlers and gold towns in the early days of Idaho.

A replica of one of the great cattle drives of the early days is a striking side feature.

Here is, perhaps, one of the greatest of all Zane Grey tales, produced as is fitting such a story, with a cast that approaches perfection. Moreno and Miss Chadwick have featured roles, and others, besides those already mentioned, include Charles Ogle, James Cagney, Edward Gribble and Luke Cosgrave.

Alvin Wyckoff did the photography.

Music Lovers' Night at Capitol This Evening

For to-night the Capitol Theatre will present as usual their Music Lovers' Night. A pleasing and first class programme has been selected which is as follows:

Selection—Lucia de Lammermoor..... Donizetti

Overture—Queen of Autumn..... Boldean

Intermezzo—Morning on the Plains..... Dawson

Overture—Dramatic..... Kela Bela

In addition to the以上, Frederick Stone and his accompanist, Miss Lucille Randle have made during the past week, the management have prevailed on them to stay one week more. The songs selected by Mr. Stone will be light, and no doubt will be a fine extra attraction to the usual programme.

"Hit and Run"
Hoot's Latest Promises Well

This is Seventeenth Picture Made by Sedgwick, Now at Columbia

Hoot Gibson's latest Universal production which promised to be a classic of the classical sport, baseball, comes to the Columbia Theatre as the attraction beginning to-day.

Of course the title is "Hit and Run."

The world could expect, or

no phrase could better describe the fast action of a Gibson version of a great game.

Edward Sedgwick and Raymond L. Schrock wrote the story and scenario, and Sedgwick directed the filming.

In the cast, Gibson are several popular players, including Marian Harlan, daughter of the character artist, Otis Harlan, Harold Goodwin, DeWitt Jennings, Cyril Ring,

and others.

William A. Steele and Mike Donlin, once one of the world's most famous ball players. With Dolan in the cast and with even power in the story—naturally a rabid baseball fan, the technical end of the story practically took care of itself. In Los Angeles, ten miles from Universal City, a large number of baseball players "hibernate" during the Winter; and thirty of these were employed.

"Hit and Run" will present Gibson in the role of a green "swat team" in the red Babe Ruth, of a team in some place in the western desert where the tall park is merely a portion of the unending vista of cactus and sagebrush. He is found by a "scout"—played by Donlin—and sent to the big league, where his inability to catch a ball makes him the laughing stock until he carouses the pill one time after another against a veteran pitcher and wakes up to find himself famous.

This is the seventeenth production in which the inimitable Hoot has been directed by Sedgwick.

A lantern lecture by Napier Denison on "Earthquakes" will be held in St. Mark's Hall on Tuesday, November 4, at 8 p.m., under the auspices of the Young People's Association.

Filming "Sundown" Brought Relief To Ranch Woman

Specialist Turned From Instruments to Arguments in Saving Woman From Collapse

A sick woman doesn't usually cause much disturbance on a ranch. Particularly when the ranch runs 200,000 acres and she is the only woman on the place and just a fair cook.

If she should die there is always another soul-starved woman who will come out from town and burn her eyes out in the vastness of nothing.

There was a sick woman on the ranch by the Rio Grande when First National started part of "Sundown," which comes to the Capitol Theatre at the widely heralded epic of the West this week.

They are in Los Angeles now and they came out to First National studio as "Sundown" was completed.

She had on a filmy white dress that fluttered in a gentle breeze and he clumped around in boots and they looked sort of happy and she had marked the bill "Paid," but not until she proved that she was feeling better by appearing in a brief scene for the great production.

With the company arrived Dr. Silas A. Lewis, world famous specialist who has treated Texan to a sick man with whom the company had important business pending, and whose death was feared.

But Dr. Lewis had a more en-

grossing matter in hand than a consulta-

tion over a rich and powerful man. Instead of going from their

ranch to El Paso for the consulta-

tion to which the southwest had summoned her best surgeon, Dr. Lewis turned the studio ranch house into a hospital and let a practice that extends from Los Angeles to London take care of itself.

A sick and sorrowful woman needed help and one of the world's most distinguished surgeons cut himself a gown out of a sheet, pulled it on over his flannel shirt and chaps and went to work. But he didn't operate. He just talked.

The woman had a husband; most women like that have one in addition to their other troubles. He was a big, blundering fellow with a well defined stupidity.

"What do I owe you, doc?" he asked. "The ranch would have been just part payment in ratio to the surgeon's scale of fees."

"Nothing," he answered. "But you owe this woman something. You owe her look at green grass, the sapphire sea, at a starry window of Los Angeles. You owe her a film when you first saw her. You owe her babies and a cottage with rose bushes under green shuttered windows. Pay off the mortgage on her life."

They are in Los Angeles now and they came out to First National studio as "Sundown" was completed.

She had on a filmy white dress that fluttered in a gentle breeze and he clumped around in boots and they looked sort of happy and she had marked the bill "Paid," but not until she proved that she was feeling better by appearing in a brief scene for the great production.

The regular monthly meeting of the Oaklands Parent-Teacher Association will be held to-night at 8 o'clock at the Oaklands School. Election of officers will take place.

SHOWING THIS WEEK AT CAPITOL

Roy Stewart, Charles Murray and Bessie Love in "Sundown."

Carboin Guest Soloist of World's Largest Organ

Sometimes prophecies come true. Such is the case with the prophecy made by Alphonse Mailly, the veteran organist at the Court of Belgium in 1894 when he said of Charles M. Courboin, his brilliant pupil, "He destined to play the largest organ in the world." And so it was. Courboin, who is to play a recital in this city on Wednesday, November 12, at the organ of the Metropolitan Church, after a romantic career in Europe came to America and in 1919 became guest soloist of the largest organ in the world, situated in the grand court of the Philadelphia Wanamaker store. This magnificent instrument has 240 stops and weighs 185 tons. More than 120,000 feet of lumber were used in its construction. The interior of the organ is lighted by incandescent lights sufficient in number to light the streets of a small town, and stairways lead from one storeroom to another so that visitors may readily go through the interior of the instrument. It would take a room 24x50 feet to hold the entire instrument. A vacuum cleaner removes all dust from the interior and an ingenious device regulates the amount of moisture within the organ chamber. The main console or keyboard weighs 1,000 pounds and is located by side. The organ is situated entirely by electricity. There are over 4,000 open electric circuits inside the instrument. A modern organ factory employing six or seven men is kept in operation constantly for the adjustment and enlargement of this mammoth instrument, many of the most important developments being the suggestions of M. Courboin himself.

Tickets are now on sale at Fletcher Brothers' music store, and the management, desirous of giving an opportunity to all young people of the community to hear Beloit's greatest organist, special student tickets will be issued to those who make early application.

SEEK EXTENSION OF STREET CARS ON BURNSIDE ROAD

At the usual Saturday evening social of the Burnside Lawn Bowling Club, the Ladies' Club took possession of the programme, and in addition to the usual game of 500 put through a resolution in favor of the extension of the street car service along the Burnside Road.

One speaker declared that the residents in this section had petitioned

JANE MERCER

LOIS WEBER'S tremendous production

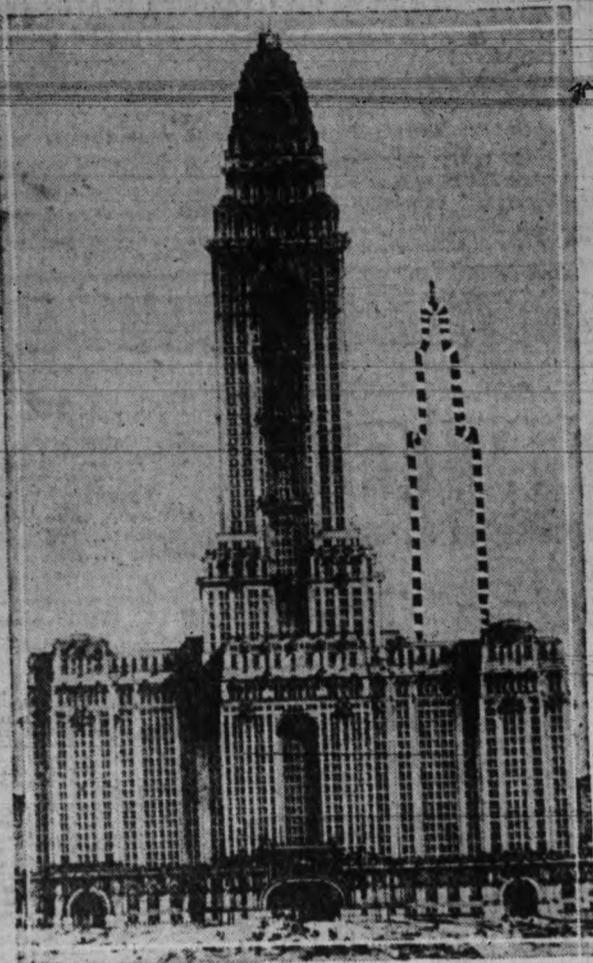

AT EVERY TURN SHE FACED A NEW CRISIS!

Whichever way she turned, the accusing finger of those who knew her inner life pointed at her. Years wasted, opportunities lost, love trampled upon—only now did she realize the futility of her existence. Could she build a new future on the ruins of a dead past? It's a picture of life itself, brought to the screen by the artistry of its author, director and actors. It bears human souls to teach a great lesson, fearless yet engrossing.

WOOLSWORTH IN ECLIPSE—Italy is entering the skyscraper field with a projected building in Rome, 1,100 feet tall, to be called the "Mole Littoria." The Woolworth Building, indicated by a dotted line on the right, is only 792 feet high. The new building is to contain 4,800 rooms, a concert hall, gymnasiums and training space for all sports.

ANOTHER CAUGHT—Ontario's succession duty free bond scandals claimed another victim in the Supreme Court assizes, when Charles A. Matthews, one-time deputy treasurer of the province, was sentenced to two years in Kingston penitentiary for sharing in the profits made on bonds sold to the government.

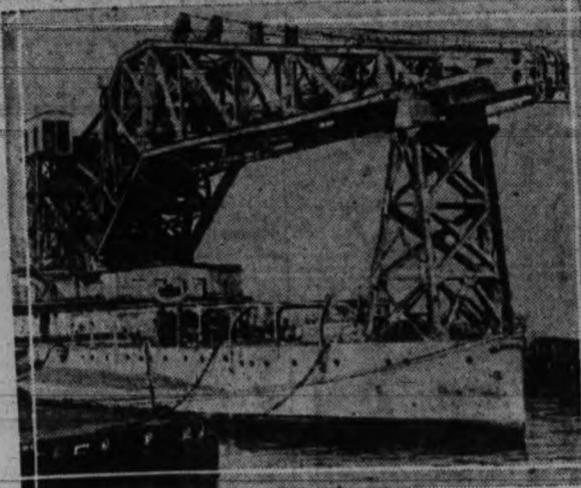

SCHOOL DAYS

Copyright, 1924, by
The McCallum Newspaper Syndicate

By DWIG

BIG CHIEF—With the campaign on, President Coolidge is doing a lot of smiling for the cameramen. He also is having many honors thrust upon him. Here he is with a hat of the Smoki tribesmen, sent to him by the Chamber of Commerce of Prescott, Ariz., when he was made a member of the tribe.

NAVY'S VALET—Whenever a United States battleship at sea needs its uniform adjusted, such as a new turret or a new gun lifted into place, the crane ship Kearsarge is called for. The crane has lifting capacity of 250 tons.

A WARNING THAT WENT UNHEEDED—"School Bus—Be Careful!" But someone evidently did not heed the injunction. And as a result, four children were killed and nineteen injured, several seriously, when an interurban car ploughed into the machine near Sheffield Lake Village, O. Whether the driver or the motorman on the interurban was to blame probably never will be known.

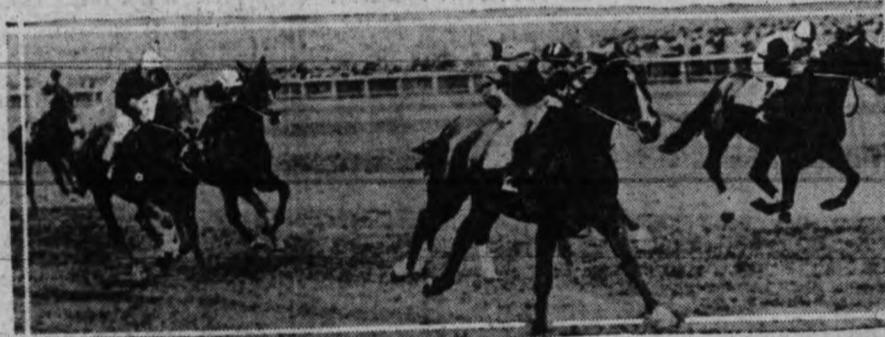

IN SPAIN—Attending a bull fight garbed in the señorita's distinctive "mantilla," Queen Victoria shows not only her charm but also her patriotism. She is considered the best dressed woman in European royalty.

MIGHTY FALLEN—Peter Smith, ex-provincial treasurer was handcuffed to two police officers when he was brought from Toronto jail to testify at the trial of his former deputy, Chas. A. Matthews.

RUSSIANS MAKE PILGRIMAGES TO LENIN TOMB—Russian peasants travel great distances to visit the tomb of Lenin in Moscow. And their pilgrimages are never complete until they spend their rubles for highly-enamelled buttons upon which their dead leader's features are inscribed. The peddlers do a thriving business.

ONLY 100 TO 1—English turf followers got their biggest thrill of the season from this sight as Aga Khan's Charley's Mount, paying 100 to 1, romped home first in the Casarewitch feature. The favorite in the race was kicked at the post and finished fourth.

BEAUTY—Spanish loveliness in its daintiest and most blushing form is exhibited by the Duchess of Alba, who recently visited Victoria. She is the young wife of the richest and proudest of her country's nobility.

NEVER DAUNTED—Despite the predictions that the Liberal Party would lose ground in last week's general election in Britain, the principal leaders of the party seemed in no way down-hearted. Sir Alfred Mond, on the left, and ex-Premier Lloyd George are seen above looking out the window of their railroad compartment on a train at Euston station just before leaving to campaign in Carmarthen and Carnarvon, their constituencies.

POLICE CHIEF CHARGED WITH GRAFT—Pierre Belanger, Montreal Chief of Police, whose suspension was asked for in the police probe by counsel for the citizens' committee after the keeper of a disorderly house had testified that she had given the chief \$10 on three occasions as well as a case of champagne. The sketch is by A. G. Lacey, well-known cartoonist of Montreal.

Wall Street TO-DAY

Last Minute News on Stocks
and Financial Affairs

WALL ST. CONSIDERS COOLIDGE VICTORY CERTAIN; BETS 11-1

New York, Nov. 3 (By R. P. Clark & Co.)—For a while the stock market displayed some hesitancy to-day, but then the whole a strong tone was maintained and in the last hour of the session prices advanced to the best of the day, most of the news items of the day were constructive in character and included copper quotations around 13% and 13½ per pound and also advised to the effect that crude oil was exhibiting a much firmer tone.

Bull shares were rather pronounced to-day by their strength and this was particularly noticeable in the so-called investment stocks.

Generally the action of the market will be largely influenced by the election results of to-morrow.

Basically we believe the market is in a rather sound position.

New York, Nov. 3 (By B. C. Bond Corporation)—Under the leadership of the standard stocks, American Can., Steel, Baldwin and General Electric among the industrials and New York Central, Atchison and the Con. Pacific, among the railroads, the market closed in exhibition of strength demonstrating that Wall Street already had the votes counted and found Coolidge triumphant.

Despite the general expectation of quiet market conditions, with no signs of strength, odds on Coolidge of 11 to 1 favored the Republicans had victory safely stored away so far as Wall Street was concerned. However, profit-taking was easily absorbed and special interest was in evidence on the list. Cuyamel Fruit afforded an exception to the general trend, breaking three points to 45% on the earnings statement for the third quarter in which the company failed to cover its dividend requirement for the period.

The election of Coolidge seems to be regarded as a certainty in the Stock market," says Prince and Whately. "The question of most interest, therefore, is as to how much this has been reflected in the market's rise in stock prices. One view holds that the opening Wednesday will probably be sharply higher, and that this will be the high market for some time to come and that some sharp reaction will follow. There are many takers out of stocks who expect to buy back on a reaction. There are others who sold short in anticipation of a decline after election. This is the substance of the strengths and weaknesses of the market, and for this reason the course of the market Wednesday may be just the opposite of majority opinions. It has been so in the past. From 1918 to 1920 inclusive railroad stocks advanced on the election of President Wilson, with one exception. Industrial stocks advanced with two exceptions."

WHEAT MARKET MAKES NEW LOW

Chicago, Nov. 3 (By R. P. Clark & Co.)—The market continued to stagger under the big load of hedges against continuing big receipts, while the speculative holders are at the moment receiving little support from the foreign buyer, who temporarily appears to be well supplied. It is largely the present plenty affords a big handicap to those who are basing their operations on the theory that there will be actual relative scarcity later on.

All estimates indicate that Europe will need an immense amount of our wheat, and we estimate we have increasing stocks, and a very limited export demand. We have no doubt that in the long pull, the bull position will prove immensely profitable, but in the meantime two things are essential if there is to be a healthy bull market. First, a great deal of trade activity and smaller receipts.

We are of the opinion that these will both come in a comparatively short time. For the present therefore would be inclined to mark time pending further developments, except quick profits on the fluctuations incident to a trading market.

Corn: November crop estimates indicate yield of 1,460,000,000 to 1,470,000,000 with present quality on record.

Farm stocks of old corn estimated at 140,000,000 against 53,000,000 a year ago and 173,000,000 two years ago.

Murray estimates percentage of merchantable corn in nine surplus states at 1,044,000,000 against 1,728,000,000 a year ago, this deficiency makes a strong fundamental situation in corn, and accounts for the bullish attitude of influential interests.

Cash corn relatively ¼ to ½ better here to-day.

On the dips we look for accumulation of corn for investment on a big scale.

A want ad will serve you when you decide to add to your portfolio by giving private leads when you want to sell a musical instrument—when you lose boarders or lodgers or tenants—when anything goes wrong that a want ad can set right.

A want ad will serve you when the need to sell property comes—as it does, sometimes, with suddenness and urgency. In such circumstances a large portion of an ad may be wholly inadequate—although this is not always so. But advertising persisted in until the property is sold in the business-like solution of the matter.

Chicago, Nov. 3 (By R. C. Bond Corporation)—Wheat and rye went into new low ground on the present movement but both rallied before the close. The finish, however, was below Saturday's final price. Oats were lower and slow, although some wheat and rye were sold on the day. Corn and barley held firm in narrow trading range and showed little net change. New corn is beginning to arrive in all markets but the movement is not expected to reach sizeable proportions.

Brokers to Give Election Results

All-American markets will be closed to-morrow because of the national elections in United States.

Local brokers will give direct New York service on the election returns. The Canadian Salmon featured Saturday's stock exchange.

The stock reached the new high for the year of 23, up 2½ points.

Brazilian reached the high mark of 52½. Port Hope Sanitary closed hands at 61½. Royal Mail closed at 62.

Royal Mail preferred made a net advance of 5 points to 52½. The balance of the market was comparatively quiet with prices holding firm. Dominion Canneries was stronger at 40%. C.P.R. was up ½ to 116. Toronto railway reached a high point of 111 for the day and finished at 110½ with trading very inactive.

Full particulars later.

Also in Our Stockyards at 11 o'clock.

nicie lot of pullets, cockerels, hens and a large assortment of fresh Vegetables.

VETERANS ASK FOR FREIGHT RATE CUT

Resolution Passed at Meeting of Provincial Branch of G.A.U.V.

To be Sent to Federal Government to Aid Move For Early Change

ELECTRIC RAY TO RESTORE HEALTH SOUGHT BY SCIENTIST

Dr. John Clawson Burnett and his oscilloscopic "Castle" where he conducts his experiments.

Vancouver, Nov. 3.—Recognizing the importance of cheap freight rates as a factor in the industrial life and development of the community, members of the provincial command of the Grand Army of United Veterans, at the annual convention in Vancouver during the week-end, passed a resolution instructing the secretary to memorialize the Dominion Government "strongly urging the necessity for an immediate adjustment of freight rates to remove all discrimination against the Province of British Columbia."

This is the first resolution passed by the Grand Army of United Veterans not dealing directly with veterans' problems. It was introduced by F. W. Crawford, retiring provincial secretary and secretary of the Vancouver branch, who strongly urged its adoption on the grounds of community welfare. The whole question, he said, affected so intimately the commercial and industrial life of the Province that ex-service men would benefit largely from a proper adjustment of the freight rate structure.

MINING NEWS

E. Tersian, president of the Golden Age Mining Company, has arrived at Nelson from the eastern States, where he has made arrangements for sufficient capital to proceed with the development of the Golden Age mine.

This gold mine is situated near the Great Northern track, about nine miles south of Nelson.

The Tersian brothers plan to begin operations at once, and to drive the lower tunnel another 500 feet into the vein. This will give the company sufficient depth to justify the erection of a mill in the early Spring.

Mr. Tersian stated that the mill put up then would be a good-sized one.

The Telka Collieries are preparing to make shipments of coal to Prince Rupert as soon as the first snow arrives. This is a mine that is now owned by Prince Rupert largely and last year the coal shipped gave general satisfaction, says the Prince Rupert News.

Greater depth has now been attained in this mine and the quality of the product improved as they go down. Also more care is being taken in making shipments so that the reputation of the coal may be kept up.

It is expected by the company that the building of the elevator at Prince Rupert will have a good effect on business. The demand for export will increase, and particularly for buna rubber, the Telka producing being of excellent quality and well suited for use in steamships. The following is an analysis of the coal produced there:

Betty Coal from 14 foot beds: moisture .80; vol. and com. 29.30; fixed carbon, 65.30; ash 4.78.

Betty Blacksmith coal: moisture,

The Surprising Sex

By MILDRED BARBOUR—Author of "Love Stakes," Etc.

LATOUR ACTS

Two of the people most vitally involved in the newspaper story of Jimmy Phillips' ill-fated visit upon Julie the previous midnight did not read the morning papers over their breakfast coffee.

One of them was Julie, who, worn out by the dramatic events of the day and evening, slept late and awoke on the morning when an official Washington buzzed with the scandal which a shocked reporter had uncovered.

The other was Blake. He had risen early after a restless, tossing night, when his wide-awake brain had been set to doubt of the innocence of Anna, of the white black nature. Without stopping for breakfast or a glance at the newspapers, he ordered his horse and set out for the Paris bridge paths.

There was a crispness suggestive of the "juice" mining operations with a force of fifty men are to start in the new mill.

The new mill has a capacity of fifty tons per hour, he states. Machinery of a splendid type has been installed in the mill and plant, and a new bunk house, mess house, magazine and a superintendent's residence have been constructed. The office building, which is 24 by 40 feet, two stories was purchased at Conrad, seventy miles distant, and floated down Tagish Lake on a raft to the mine.

A high-powered radio receiving set is to be installed to assist the miners in whiling away the long northern evenings. The mine being sixty-nine miles from the railway, it is necessary for the company to be supplied for the period from June 1st to November until June.

During that period the only communication with the outside world is by way of Atlin, thirty-one miles distant.

Still unaware that all over Wash-

ington gossiping tongues were busy with his name and Julie's, he ran Anna's bell and was admitted by her maid.

Anna kept him waiting. She felt that she could afford to. His coming of his own accord showed her how great was her triumph. In the face of that scurrilous story about Julie, he had come to her, proving how little the his former wife meant to him, Anna responded happily, all unaware that Blake had not seen the news paper.

When she finally came down to him, beautiful, radiant, smiling, he was standing in the centre of her drawing-room, frowning thoughtfully at the blank wall. His head jerked up and down.

"Anna," he said, abruptly. "I have made up my mind to decline the senatorial nomination. I am going to retire from politics and resume law practice again in Cranston."

For a moment Anna was speechless, then she burst out:

"You're stark, raving mad! I won't listen to such nonsense—not anyone!"

He smiled grimly.

"This is my life to lead as I choose. And I choose to be a private citizen. I'm tired of death of politics. I have no further interest. I'm through!"

Anna began to shake with fury. She saw her dazzling dream of a future as the wife of Senator Blake slipping from her. All her plans, all her plotting and striving and suffering to attain social success were going to waste.

In vain!

"No! no! no!" her heart cried out.

She got hold of herself with difficulty.

"This is nonsense, John. You're upset by that wretched story in the paper this morning. You know it's Julie's misdeemeanor that you bitter. She is nothing to you anymore."

He turned upon her savagely.

"What story? What do you mean by 'Julie's misdeemeanors'? Answer me! What?"

"But you can't mean you haven't read—" Anna gasped.

"I have read it, just now."

Julie puffed her pretty brow over the note. What could he have thought of overnight that was important enough to bring him to her?

Dr. Burnett declares he has no commercial interest. He is quite wealthy. If science declares his device to be valuable the world is welcome to it.

With the words: "My child, my poor darling child!" she folded the astonished Julie in her arms.

"Mother, why do you say that?"

The older woman scrutinized her closely.

"You don't know? You haven't heard? Don't you read the newspapers?"

Julie glanced toward the reading-table, where the unfolded paper lay.

"I haven't had time yet this morning!" She stretched out her hand for it, but her mother removed it gently from her reach.

"It is something—oh, is it John?"

Julie was white to the lips.

He jerked away from her savagely.

"Tell me! Let me read!"

"I won't let you go until you listen," she panted. "You shan't make a fool of yourself, if I can help it. Listen, I tell you it's true."

"Anne, if you were a man I'd kill you for that. You're taking baseless advantage of your sex. I won't stay here and listen to lies against Julie."

Somebody's going to pay for this and pay well. By night, every word of it will be repeated. Why, Julie's the sweetest, daintiest creature I ever saw."

"Julie," she cried when the sheet dropped from Julie's nerveless hand.

"There isn't a single statement that isn't open to immediate disproof. Nobody who knows you will believe it."

We'll find out who's responsible for this and make them retract. Do you think it could be the Dennison woman?"

Julie shook her head. She was dazed, white, scarcely comprehending.

"Do you know what's the matter with you?" she demanded furiously.

"It was Jimmy, of course. He was

MORTGAGE SALE WELL-LOCATED

bunny. With that he stopped dancing and threw lot of grapes at the Bear. The grapes pelted the Bear on his nose and made him blink his eyes. And when he opened his mouth to growl, Uncle Wiggily threw a bunch of grapes in the Bear's jaws.

"Oh gurra! Gurra! Gurra Gup!"

choiced the word and he was so frightened that he ran away and didn't bite the bunny after all. Then Mr. Longears drank his grape juice and hurried home with the grapes.

"I see Jane gave a very fine party for the animal ladies.

MAKING A SHRUB GARDEN

How to Select the Shrubs and Plant Them to Get the Most Beautiful Results; Shrubs Offer Wonderful Opportunities to the Artistic Gardener

By JOHN HUTCHISON, F.R.H.S.

(Copyright, 1924, by McClure News-Syndicate)

By HOWARD R. GARIS

You know where any wild grapes grow, Uncle Wiggily?" asked Nurse Jane. "We saw them this morning."

"Of course I know!" laughed Mr. Longears, giving his pink nose an extra twinkle to make it shine like a new tin dishpan from the five and ten cent store. "There are wild grapes in the woods where I go each day for adventures."

"The time for planting shrubs will soon be at hand and, therefore, a few notes on the subject of shrub gardens may not be out of place."

The shrub garden should be one of the most attractive features, although very often it is not. Unlike the garden of herbaceous plants, the shrub garden may be a thing of beauty at all times of the year, even in the depth of winter, owing to the grace of form which these subjects possess which is lacking in the case of herbaceous plants. The wonderful difference between the wild and those permanent nature make shrubs the most adaptable of materials to create beautiful effects.

William J. Haynen
Died in Winnipeg

Winnipeg, Nov. 3.—William J. Haynen, ninety-two, pioneer railway man, died at his home here Saturday. He was connected with the building of the Victoria Bridge between Montreal and St. Lambert, and in 1869 had charge of the construction of the railroads running between Montreal and Toronto. He was one of the first conductors employed by the Northern Pacific Railway in Minnesota.

He is survived by a widow and seven children, including W. J. Haynen of Oids, Alta., and Mrs. Prowse, of Seattle.

REPORTS PROGRESS ON AGRICULTURE

Northern Area is Making
Steady Development

Are There Reindeer at Ootsa
Lake?

The chairman of the advisory board of Farmers' Institutes, James Bailey of Sardis, and the secretary of the board, C. E. Whitney-Giffiths, have returned from an extended trip through the British Columbian area in the interests of agriculture in which they were accompanied at the time by the C. E. Diary Commissioner, H. Rive.

The secretaries report a most successful tour and have brought back much information of interest to agriculturists and others interested in these parts. The Farmers' Institute movement is making rapid strides throughout the interior, and it is asserted that many agricultural improvements have resulted thereby.

The trip extended to the Okanagan and Cariboo districts, and took over three weeks to accomplish.

In the dairy situation, the

causes much astonishment, and the prospects for increased consumption

of dairy products were looked into.

It was found that there are only three creameries in this city, with a population reputed to be 6,000 souls.

Milk is being largely imported from Woodstock and Quick, the latter

being reported to have a

large number will take stock in the association, proposed to be called the Lakes Creamery Association. A building will be put up in the

Spring if all plans materialize. It is

the intention of these enterprisers to

apply for Government assistance and the loan of equipment.

HOSPITAL TROUBLE

The visitors found the district much perturbed over the closing of the Francois Lake Hospital, and a meeting was held at Wisteria when delegates from as far as Burns Lake were invited to try and come to an understanding and to prevent the liquidation of the equipment which had been moved from the hospital a few days before any of the serious disagreement having arisen between the local hospital board and the mission could culminate in anything drastic.

It is reported that there is a

population there is a big

profit. More vegetables are now being

supplied. The lake ferry

records show a big profit. In July,

August and September over 1,000

passengers per month were carried,

and over 300 autos, 160 teams, over

1,000 tons of freight and cattle, sheep

and pigs. Agriculture is making good

progress through nearly the whole of

this country.

The Farmers' Institute at Wisteria

was formed less than two years ago

and is now handling the marketing of

produce from that district, and conducting a co-operative store.

The Francois Lake Institute have

selected a woman as their secretary,

Mrs. Hinkley.

At Prince George two excellent

meetings were held, one at Woodpecker, which is some thirty-five miles from the city, and here again as elsewhere the lumber industry is at a standstill. The Land Settlement Board have the finest area of land here. Again at Prince George the cross-section is to the past and future developments in dairying and grain growing is looked for. It is expected that timothy seed will be grown through this particular country.

The Farmers' Institute at Terrace

was formed less than two years ago

and is now handling the marketing of

produce from that district, and conducting a co-operative store.

meetings were held, one at Woodpecker, which is some thirty-five miles from the city, and here again as elsewhere the lumber industry is at a standstill. The Land Settlement Board have the finest area of land here. Again at Prince George the cross-section is to the past and future developments in dairying and grain growing is looked for. It is expected that timothy seed will be grown through this particular country.

The Farmers' Institute at Terrace

was formed less than two years ago

and is now handling the marketing of

produce from that district, and conducting a co-operative store.

The Francois Lake Institute have

selected a woman as their secretary,

Mrs. Hinkley.

At Prince George two excellent

meetings were held, one at Woodpecker, which is some thirty-five miles from the city, and here again as elsewhere the lumber industry is at a standstill.
